

Inoculator / Operator at Contec Global Agro Limited

At Contec Agro, we develop organic farming products such as bioseed, biofertilizer, and bioplanting to help Africa develop its agricultural industry and ensure food security for the future. Our products are used at all stages of farming, including seed treatment, root dipping, soil application, and dip irrigation. Our laboratories culture tissues, grow and analyze bacteria, and use biotechnology to develop plants that are immune to today's harms.

We are recruiting to fill the position below:
